About Me

I am a full-stack developer passionate about creating innovative and scalable web solutions. I have extensive experience in front-end and back-end technologies which allows me to build robust applications. I am always looking for new challenges and continuous learning in programming.

Experiences

● Sunset Sands Hotel 2023-2023

FrontEnd Developer

- I was working as a Frontend developer in this project, I was in charge of designing, developing and maintaining the web interface. Implement visual and functional improvements. Collaborate with the team to optimize the user experience.

● Soy Henry BootCamp MAYO-2023-AGOSTO-2023

Teaching Assistant (TA)

- I have been working as a Teaching Assistant (TA), my role as coordinator focused on ensuring the academic and personal success of the students, providing support and guidance while working to constantly improve the educational experience of the program.

● Amov International Teleservices 2012 - 2018

Team Leader

- I was in charge of guiding, training and motivating the customer service team, ensuring a high level of customer satisfaction and solving problems efficiently. In addition, it monitors performance, sets goals, and promotes a positive work environment.

Education

● Dominican University O&M

- Computer Systems Engineer
- 2016-2023

● SoyHenry Bootcamp

- Full Stack Developer
- Feb-2023-Jul-2023
